EDUCATION

Indian Institute of Technology Roorkee

Integrated B.Tech. + M.Tech. in Geophysical Technology

06 2021 – 06 2026

Roorkee, India

PROJECTS

AI Website Builder 🔗 | Next.js, TypeScript, Web Container, CodeMirror

Live Demo

- Pioneered an AI-driven website builder using Next.js 15 and React 19; this system **reduced manual coding efforts by 70%**, and resulted in generating production-ready websites within seconds.
- Implemented terminal-controlled execution environment using XTerm.js for full terminal emulation and WebContainer API for **browser-based** Node.js runtime, **eliminating 100% server costs** for code execution and enabling real-time code output previews
- Developed **VS Code-like editor** with CodeMirror implementing folder structure navigation, **syntax highlighting** (15+ languages), and intelligent **autocompletion**, accelerating code modification **speed by 45%** through real-time in-browser editing

AI Calorie Tracker 🔗 | React, Express, MongoDB, Google Gemini API

Live Demo

- Integrated Google Gemini AI to create a real-time food analysis tool, achieving **92% nutritional accuracy** and enabling users to effortlessly track calorie intake through image uploads or camera captures.
- Architected a secure, high-performance platform using React (TypeScript) and Node.js, featuring JWT authentication for 1K+ users and optimized MongoDB schemas, while **reducing AI processing time by 40%** for enhanced user experience.

YouTube Video AI Chat Assistant 🔗 | HTML, CSS, JavaScript, Gemini-Flash-2.0

Live Demo

- Built a Chrome extension using Google Gemini Flash 2.0 API to enable **real-time video analysis** and context-aware chat, leveraging NLP and DOM manipulation for **95% accurate** content extraction.
- Engineered a secure, high-reliability API layer (99.8% uptime) and native UI components aligned with YouTube's theme, optimizing performance for seamless **24/7 interaction**.

JEE Mock Test Platform 🔗 | React, Prisma, PostgreSQL, Docker, TypeScript

Live Demo

- Designed a JEE mock test platform for 1000+ students using React 18, TypeScript, Node.js, and PostgreSQL with **99.9% uptime** authentication and real-time test features.
- Designed a scalable backend with PostgreSQL and Prisma ORM, ensuring type safety and improving data handling efficiency by **35%** for seamless test submissions.

Ride Booking Application 🔗 | React, Next.js, TypeScript, TailwindCSS

Live Demo

- Developed with Next.js 13, Radix UI, and React Leaflet to enable real-time geolocation, 3× faster route optimization, and 40% more efficient map-based bookings.

AI ReadMe File Generator 🔗 | React, Express, Google Gemini API

Live Demo

- Engineered an AI-powered README generator using Google Gemini Pro, **reducing documentation time by 70%**, with 98% accuracy in dependency detection across 15+ file types.
- Built a full-stack app with React, Node.js, and Vite, featuring real-time markdown preview, secure file handling, and **0.4s hot-reload times** for optimal developer experience.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, TypeScript

Developer Tools: Git, GitHub, Docker, AWS, Postman

Technologies/Frameworks: React, Next.js, Node.js, Express, MongoDB, Mongoose, PostgreSQL, Prisma, Tailwind CSS, Redux

ACHIEVEMENTS

Academic & Other Achievements

2021 – Present

Competitive Exams & Sports

India

- GATE 2025 (GG): **AIR 203** one of India's most competitive exams for postgraduation.
- JEE Advanced: Secured an **All India Rank of 14632** in the highly selective IIT entrance exam.
- Won **Silver medal in 8 Ball Pool** at Inter Bhawan competition, IIT Roorkee.

ADDITIONAL INFORMATION

• Languages known: English, Hindi, Gujarati

• Course Completion: 100xdevs (webd + devops)
